us experts have calculated that the population of Continental United States on July 1, 1914, will be 97,812,324, against 91,572,265 on April 15, 1910, when the last census was taken. For the United States and its possessions they estimate the population this July will be 109,021,932, compared with 101,748,259 in 1910. Estimates for cities under 100,000 have not been announced, but among the estimates are 100,000 population or more, made as of July 1, 1914, are the following:
